

After you will use it the first time, Idrokid will become your thrusty hydraulic tube bundle extractor.

I am able to pull and push one tube-bundle only with or without the help of your operator.

New Idrokid Cobra line

The new revolutionary fully electronic self-balancing Idrokid "Cobra Line", able to pull and push your tube bundle with or without your operator!

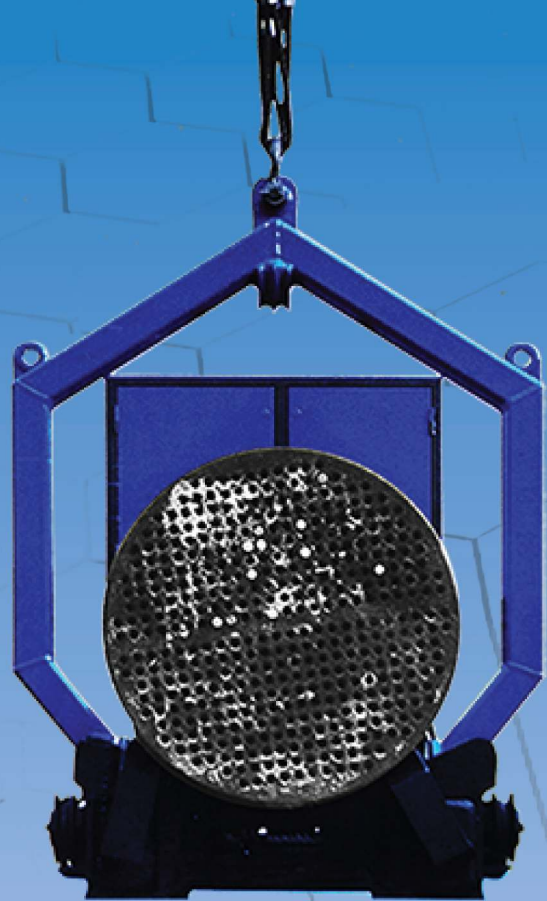

NEW SELF BALANCING SYSTEM

International Patent Pending

IdroKID

Idrokid is able to remove and reinstall 100% of the tube-bundles in common petroleum refinery use, with great easiness in cheap way.

The hydraulic tube bundle extractor, super light, super easy to operate, super powerful, super clever.

Idrokid's hydraulic system brings the convenience to change the pulling force automatically: it increase the power and at same time decreases the speed and viceversa.

Idrokid extractor is a the forefront of technology, because it is born from 1000 ideas, by peoples that everyday pull and push tube bundles in oil refineries and chemical plants all over the world.

ATEX ZONE 1 Temperature T2
(air motor or electric motor optional)

Hydraulic V-Block Trolley
(optional)

Wireless remote control box
(optional)

“New self-balancing fully electronic Cobra Line”

SPECIFICATIONS	Super Clever	Super Idrokid	Super Idrokid 2
BUNDLE EXTRACTOR MACHINE			
LENGTH	7000 mms.	8000 mms.	8000 mms.
WIDTH	1020 mms.	1220 mms.	1220 mms.
HEIGHT	2215 mms.	2315 mms.	2315 mms.
WEIGHT (without arch)	4800 kgs.	5400 kgs.	5600 kgs.
TUBE BUNDLE			
LENGTH	6500 mms.	7700 mms.	7700 mms.
WEIGHT AT MAXIMUM HEIGHT 7000 MM	25000 kgs.	35000 kgs.	45000 kgs.
WEIGHT AT MINIMUM HEIGHT 610 MM	N/a.		
DIAMETER	1600 MMS.	2000 MMS.	2000 MMS.
WINCH PULL FORCE	62000/100000 kgs.	62000/100000 kgs.	62000/100000 kgs.
SPEED	2.8 m / min	2.8 m / min	2.8 m / min
PUMP REXROTH VAR. DELIVERY			
ENGINE/AIR DRIVE HATZ MOD. 2L41C			
COOLING SYSTEM	AIR RADIATOR		
NO. OF CYLINDERS	2		
CUBIC CAPACITY	1716 CC.		
RPM	3000		
HORSE POWER	33
